

To all guardians Information about new preschools

Sörby preschool opens in autumn 2020. The new preschool at Loviseberg is projected to be completed in June 2021.

A forum for consultation was planned in April to inform about the process of transferring children and work teams to the new preschool at Sörby, but because of the Corona virus we refrain from physical meetings and communicate by e-mail.

Work with the organization for staff and groups of children is now being intensified during April and May. Information to trade unions regarding work teams will be communicated in April. Child groups and work teams that will be placed at Sörby preschool are planned to be ready by 2020-06-01.

Sörby Preschool should be finalized by September according to the timetable.

This means that: **The children's groups together with the staff who will start at Sörby preschool start up at Loviseberg preschool 2020-08-10.**

This is to get to know each other before the move, as it is very likely that there will be new work teams and to some new groups of children.

Tegelhuset will remain until the summer of 2021. The remaining locations will be phased out to accommodate the new preschool at Loviseberg.

You can read more about the construction of the preschools here [New Preschools](#)

If you have questions about rules, please refer to [the Rules and Fees Preschool](#) (in Swedish) or contact the school administrator [Maria Drott](#)
